Adverse Weather Conditions & School Closure Procedures

Dear Parents and Carers,

It is the time of year when severe weather, including snow, may affect our area. We will always do our best to keep the school and nursery open. However, there are circumstances where closure may be unavoidable. For example, if a significant number of staff are unable to travel safely to school, if we cannot provide meals for children who have ordered hot lunches, or if there is a failure in essential services such as heating, we will regrettably need to close.

The decision to close the school and nursery is never taken lightly and will only be made as a last resort. Before any decision is reached, I will consult with Mr Hayward (Site Manager) and Mr Green (Deputy Head) to carefully assess the school grounds and local weather conditions.

If the school and / or nursery do need to close due to adverse weather conditions, you will be notified in the following ways:

- Via email from the school office
- Text message from the school office
- Via the scrolling bar on the home page of our school website <https://www.kingfisherschool.org/>
- On our X page (Twitter) @KingfisherYeo
- Information will be broadcast on the following local radio stations:
 -  BBC Somerset
 -  Heart Somerset

Thank you for your understanding and on-going support as we work to keep everyone safe.

With best wishes,

Mr Dan Glentworth
Head teacher
